Professional Summary

Detail-oriented and collaborative Data/Business graduate passionate about keeping data clean, accurate, and actionable. Experienced in Excel, Google Sheets, and basic Python scripting. Adept at maintaining dashboards, fixing inconsistencies, and supporting teams with reliable data foundations.

Key Skills

- Data cleaning, deduplication, and error-checking (Excel, Google Sheets)
- Operational reporting and dashboard maintenance (Looker/Quicksight basics)
- Business rule documentation and process improvement
- Collaborative teamwork and problem solving
- Curiosity for Python and data warehouse operations

Work Experience

Data Operations Assistant – XYZ Analytics (2023–Present)

- Managed large datasets, uploading leads, fixing errors, and removing duplicates to maintain data integrity.
- Cross-checked operational reports and dashboards to ensure accuracy.
- Coordinated with internal teams to fill missing info and resolve inconsistencies.
- Contributed to business rule documentation and supported early data warehouse rollout.

Junior Data Analyst – ABC Solutions (2021–2023)

- Prepared ad-hoc and recurring Excel/Google Sheets reports for management.
- Identified and raised data quality issues and implemented fixes.
- Supported dashboard updates and presented insights to stakeholders.

Education

Bachelor of Data Science – University of Sydney (2019–2022)

Technical Skills

Excel, Google Sheets, Looker/Quicksight (basic), Python (basic scripting), SQL fundamentals

Certifications & Development

- Google Data Analytics Certificate
- Regular participation in data-focused workshops and training
